T3AFFINITY

THE PRODUCT

T3Affinity is a complete exhibition and display system which can be installed and dismantled very quickly, using no tools.

There is an extensive range of retro fit accessories designed to support all graphic types (rigid, fabric and roll-up), shelving solutions, lighting accessories, monitor and tablet holders and the ability to be combined with the famous T3 System.

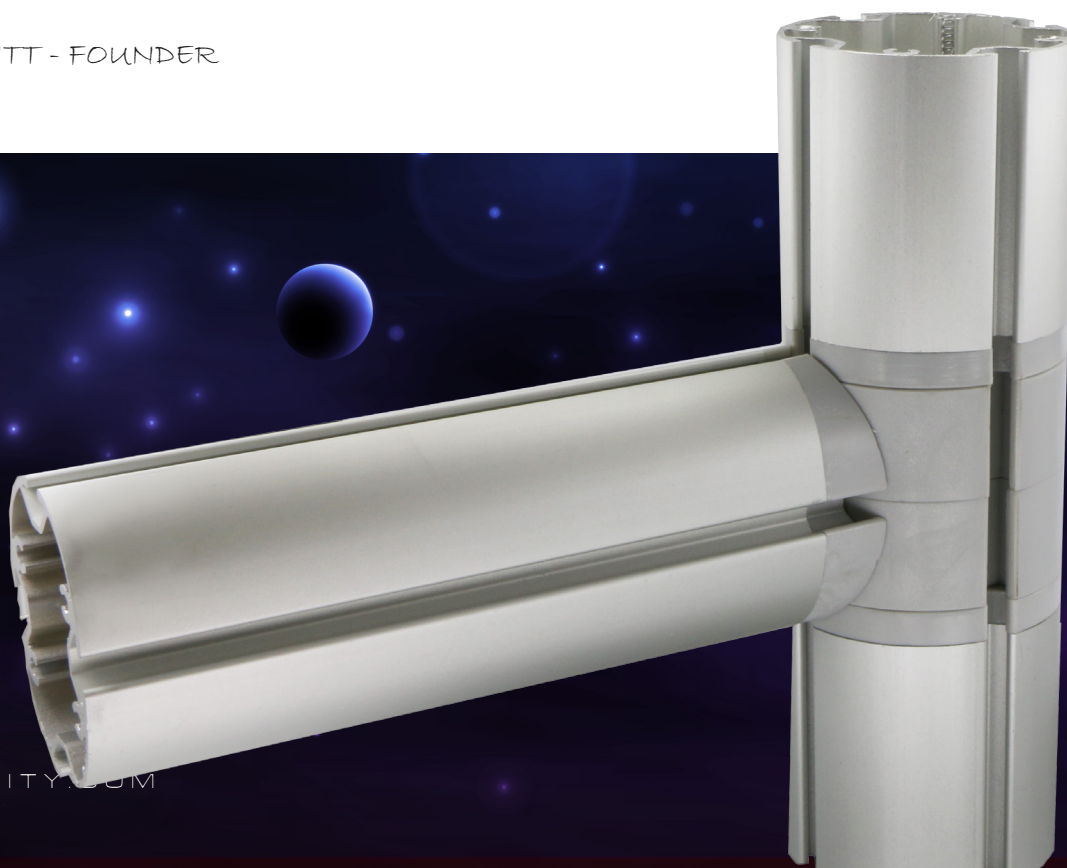

T3 Affinity is a competitively priced productsuitable for a range of markets i.e. exhibition booths, point of sale units, conferences, museums, retail units and even office dividers.

The product is brand new and will be available for global purchase from early 2016.

"T3 Affinity is the combination of European design and quality with Chinese manufacturing prices, the very best of both worlds.

We now have a great partnership and understanding with the largest Chinese exhibition system supplier, this gives us a great opportunity to grow and improve the products we sell in every way"

JONATHAN EVITT - FOUNDER
